About

Malka is an international sound artist who synthesizes heart frequency, soulful vocals, and a pop-RnB fusion. Her music draws listeners back to the truth of their heart.

Yehudah is a transformative musician who blends rhythmic textures, medicine music, with a pop-RnB edge. His sound creates an immersive experience, opening pathways for healing, introspection, and authentic connection.

Yehudah & Malka Russell, "Calling In Love" are siblings, best friends, musical partners, and change agents. Growing up, we always used music as the medicine to heal ourselves, our family, and the suffering in our world. So, we created a performance ritual that spoke to this calling- The Calling In Love Experience.
